Since 1973, E.J. Smith & Associates has been one of the nation's leading student insurance specialists. We have been providing post-secondary educational institutions with insurance services and products on a nationwide basis.

We have a wide range of fully-insured major medical plans including a new ACA compliant plan. With minimal effort on the student's part, it is possible to be insured under an alternative to the state based exchanges.

For the student who wishes not to participate in this type of plan, we still offer limited benefit plans. We have put together non-ACA compliant, fully-insured indemnity medical plans that are very affordable. These plans will provide access to primary care services at two price points, with the lowest cost plan starting at \$27 per month.

In addition to the new ACA plan, we recognize the importance of integrating technology to meet the demands of today's sophisticated student body. We are able to accept enrollment forms and payments through our [www.ejsmith.com](http://www.ejsmith.com) website in order to accommodate the changing needs of today's college students.

If you would like to receive more information on any of these health plans, please contact us at (847) 564-3660 or by email at [sales@ejsmith.com](mailto:sales@ejsmith.com). You may also request a quote by email.

While the Healthcare reform debate continues in Washington D.C., America's Colleges and Universities continue to face unsustainable costs to their employee benefits programs. E.J. Smith & Associates is your partner, finding you creative solutions with a savings to you and your employee's bottom line.

### Experience

At E.J. Smith & Associates Inc., we have specialized in Health Insurance products for students since 1973. We have built our foundation on the relationships which have developed with Colleges and Universities across the country, their students and their faculty.

E.J. Smith & Associates Inc. is the exclusive marketer of The Student Security Plan, a flexible Health Insurance Plan for College and University students.
