

# Embed Mediaspace Video in D2L Brightspace

The purpose of this document is to explain how to take an existing video within Mediaspace and embed it into D2L Brightspace.

- Within Mediaspace (<https://mediaspace.minnstate.edu/>) click on a video. You can click on the video's title or the thumbnail for it

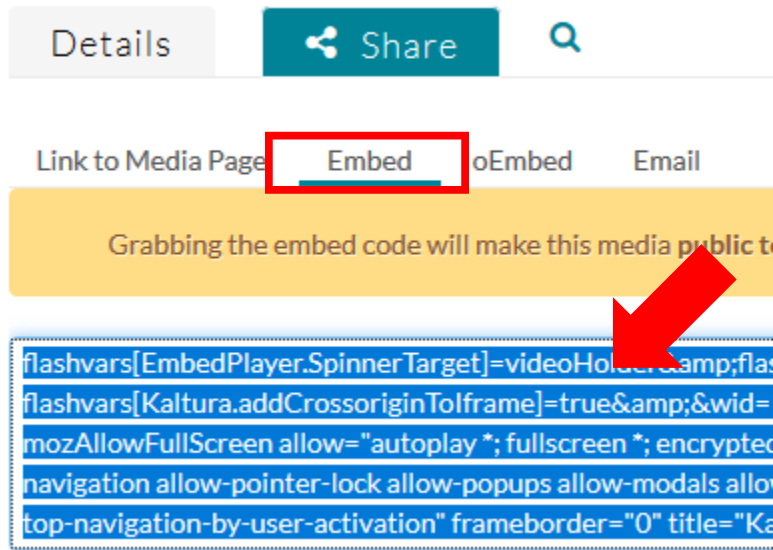

- Click on the grey **Share** button below the video

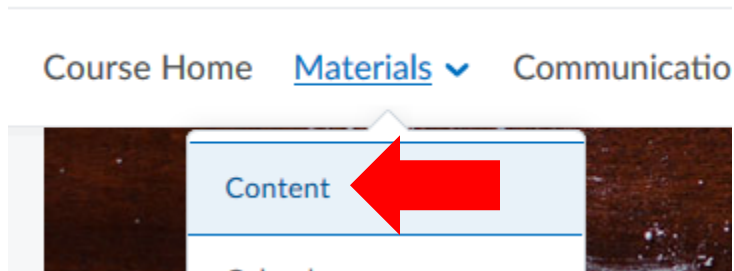

- Click on the **Embed** tab, and copy the highlighted text in the box below it

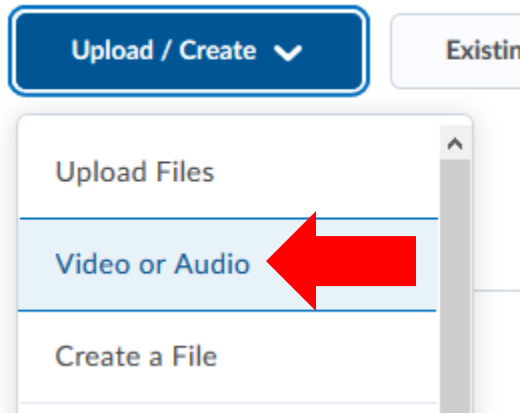

- Go to the **Content** tool within a course in D2L Brightspace:  
<https://inverhills.learn.minnstate.edu>

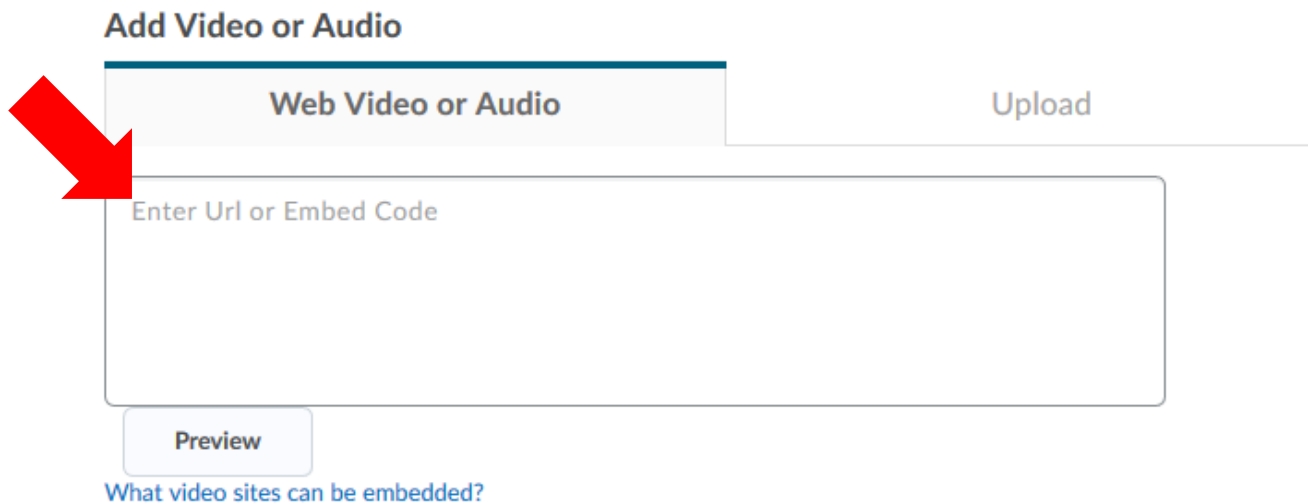

- In a module, click on the blue **Upload / Create** button, and choose the **Video or Audio** option

- Paste the embed code from Mediaspace into the box that appears

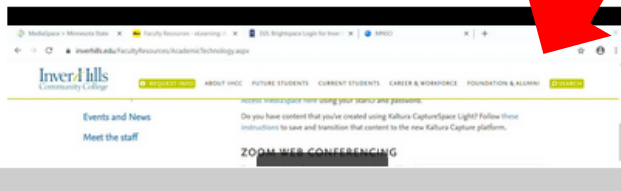

- Set a title for the video to be visible in the Content module, and preview the video to make sure you are embedding the correct video

Title \*

We have attempted to display your video. Please preview it to make sure it plays properly. Also note that this media player might not be accessible to people who navigate using assistive technology.

**Save** Cancel

- Click the blue **Save** button
