

Message from chancellor to students – Chancellor Board of Trustees remarks: COVID-19
March 18, 2020

Students,

Each month, I provide remarks and updates to the Minnesota State Board of Trustees. At today's meeting, I shared the vast scope of the work needed at every level throughout the system to meet our two priorities of keeping students, faculty, and staff safe, and helping you to finish the semester successfully. I thought you might wish to hear my remarks, which you'll find [here](#).

I know that these are difficult days. Rest assured that your colleges and universities are working hard to help you complete your educational goals.

Best,
Devinder
