This course will provide an overview of the philosophy of criminal law and deviance, and of the nature and extent of crime in America. The theory, structure, and operation of each of the principle components of the Criminal Justice System (ie. police, courts, and corrections) will be examined in detail. Major topics include the historical foundations of our Criminal Justice System, critique of current sociological theories on crime, analysis of impact of legal and social systems on human behavior, rehabilitation, public safety (including homeland security), and citizen responsibility. We will create a learning environment that takes into account all backgrounds and experiences where we can learn from one another.
