A. Course Description
   - **Credits:** 4.00
   - **Lecture Hours/Week:** 0.00
   - **Lab Hours/Week:** 8.00
   - **OJT Hours/Week:** 0
   - **Prerequisites:** None
   - **Corequisites:** None
   - **MnTC Goals:** None

Clinical II provides the student an opportunity to apply nursing judgement using evidence based care, critical thinking and clinical judgement to implement safe, patient/relationship centered care to individual patients across the lifespan (including maternal/child/pediatric). The clinical student reflects on the value of patient centered care, teamwork and collaboration, informatics, quality improvement, safety, managing care of the individual patient, and nursing judgement/evidence based care in his/her career as a LPN. Prerequisites: PNSG1010 Foundations of Nursing Practice, PNSG1400 Adult Health Nursing I, PNSG1355 Pharmacology, PNSG1600 Clinical I

B. Course Effective Dates: 8/25/14 – Present

C. Outline of Major Content Areas
   - As noted on course syllabus

D. Learning Outcomes
   1. Demonstrate and provide evidence for prioritizing problems and identifying appropriate interventions and monitoring the patient's response across the lifespan.
   2. Demonstrate appropriate use of technology to maintain patient confidentiality and access reliable information and resources.
   3. Evaluate one's communication skills and cultural sensitivity when working with diverse patients, compare individualized established plans of care across the lifespan and provide health care information while considering the patients culture, experience, and knowledge of his/her own health.

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

F. Learner Outcomes Assessment
   - As noted on course syllabus
G. Special Information

None noted
