CLINICAL I — PNSG 1600

A. Course Description

- Credits: 4.00
- Lecture Hours/Week: 0.00
- Lab Hours/Week: 8.00
- OJT Hours/Week: 0
- Prerequisites: None
- Corequisites: None
- MnTC Goals: None

Clinical I provides the student an opportunity to apply nursing judgement using the nursing process to implement safe, patient/relationship centered care in selected settings. The clinical student demonstrates focused assessments, data collection, implementation of skills learned in the lab setting, documents findings and reinforces teaching plans for individual patients with common problems. The student develops communication and customer service skills working with individual patients and team members. Prerequisites: HEAL 1061 Nursing Assistant, HEAL 1101 Anatomy and Physiology, Heal 1150 Health Career Mathematics, PSYC 1350 Lifespan Development and acceptance into PN Program.

B. Course Effective Dates: 8/25/14 – Present

C. Outline of Major Content Areas

As noted on course syllabus

D. Learning Outcomes

1. Demonstrate caring communication skills and cultural sensitivity when using the nursing process to contribute to the plan of care for adult patients and provide health care information and reinforce established teaching plans for patients.
2. Maintain Confidentiality when using information technology to accurately document the provision and outcomes of patient care, use of technology to access reliable information and resources that enhance patient care, reduce reliance on memory, and enhance competency within the practice setting.
3. Provide rationales for prioritization of care and nursing judgement and demonstrate nursing judgement when performing focused assessments, choosing nursing interventions from an established plan of care, monitoring and reporting changes in the patient's condition.

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

F. Learner Outcomes Assessment
