ICD-10-CM/PCS CODING — ADMS 1400

A. Course Description

- Credits: 3.00
- Lecture Hours/Week: 2.00
- Lab Hours/Week: 1.00
- OJT Hours/Week: 0
- Prerequisites: None
- Corequisites: None
- MnTC Goals: None

This course will introduce the student to the ICD-10-CM classification system and ICD-10-PCS inpatient procedural coding system. Emphasis will be placed on the correct process of utilizing the alphabetic index and tabular list for code assignment. The focus will be on rules, conventions, and instructions of ICD-10-CM as well as chapter specific guidelines (e.g. circulatory, injury, pregnancy), including criteria for assignment of principal and additional diagnoses in the inpatient and outpatient setting. Prerequisites: ADMS1360 Healthcare Documentation Essentials, ADMS1045 Medical Terminology

B. Course Effective Dates: 7/1/16 – Present

C. Outline of Major Content Areas

As noted on course syllabus

D. Learning Outcomes

1. Analyze current regulations and established guidelines in clinical classification systems
2. Analyze the documentation in the health record to ensure it supports the diagnosis and reflects the patient’s progress, clinical findings, and discharge status
3. Apply diagnosis and procedure codes according to current guidelines
4. Develop appropriate physician queries to resolve data and coding discrepancies
5. Evaluate the accuracy of diagnosis and procedural coding
6. Identify potential abuse or fraudulent trends through data analysis

E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

F. Learner Outcomes Assessment

As noted on course syllabus
G. Special Information

None noted
