Dear Partners,

It is with gratitude that I present you with the 2021-22 Dakota County Technical College and Inver Hills Community College Foundations’ Annual Report. Your generous, ongoing commitment to the Foundations impacts students tremendously.

Because of you, our students...

• Overcome financial barriers and graduate,
• Train on new equipment, giving them the skills to successfully begin their careers, and
• Achieve their educational goals and reach financial sustainability.

As result of a good job market coupled with increased living expenses, the colleges have experienced declining enrollments. More people have entered the workforce out of necessity, delaying their education and potential for higher salary jobs.

The Foundations have responded by increasing support for students. Scholarships, emergency assistance grants, and program improvements all increase access to higher education and ensure that students achieve success.

In the upcoming year, the Foundations will continue to help students reach their potential. The Foundations will accomplish this work by developing meaningful partnerships among community and industry organizations, and bolstering support for student and college programs.

To that end, I am excited to announce the launch of a new Annual Corporate Sponsor Program: “Partners Building a Better Future.” This program, in place of the annual fundraising gala, will allow more time to focus on student and college support opportunities, as well as, advancing mutually beneficial relationships with our corporate partners. With this new program, we look forward to better serving the needs of our students, colleges, communities and area workforce.

I sincerely appreciate you and look forward to our continued partnership supporting the next generation of well-educated and well-trained community members.

Kim Shaff,
Executive Director of Foundations and Community Relations
Join an Amazing Group of Community Supporters

Your donation to the Dakota County Technical College or Inver Hills Community College Foundation transforms lives, ensures college is accessible for all students, and helps to make dreams come true.

Support scholarships, emergency grants, a program that touched your life, create a named scholarship in honor of a loved one or mentor ($3,000 min.), or establish a permanent scholarship endowment ($25,000 min.).

How To Contribute

Cash Donations
Don’t forget to leverage your cash donation with matching gifts offered by your employer.

Online: dctc.edu/give or inverhills.edu/give
By mail: DCTC, 1300 145th St. E., Rosemount, MN 55068 or Inver Hills, 2500 80th St. E., Inver Grove Heights, MN 55076

IRA
The IRA charitable rollover allows donors age 70½ and older to make direct distributions, resulting in a distinct tax advantage.

Estate Planning
Join the Legacy Society by including the Foundation in your will or trust, or designate the Foundation as a beneficiary in your life insurance policy.

Equipment Donations
Donate new or used equipment to support an academic program.

Shop Online
Use Amazon Smile (smile.amazon.com) when shopping online, select DCTC or Inver Hills Foundation as the beneficiary of 0.5% of your eligible purchases at no additional cost.

Donate Through Spave
Effortlessly give and save as you purchase everyday items. Download the free Spave app (www.spave.io) and direct a portion of your daily spending to the DCTC or Inver Hills Foundation.

For Assistance, Please Contact:
DCTC, foundation@dctc.edu or
Inver Hills, foundation@inverhills.edu

A full list of the colleges’ donors can be found on pages 8-11.
Andres grew up in the city of Cordova, Veracruz in Mexico. He started working part-time at age eight as a grocery store clerk saving money to help his mom pay bills. The intense hunger in his house forced him into full-time work helping with the family’s basic needs. At age 12, desperation for those needs hit an all-time high, and he was not able to continue with school. Andres didn’t have money to take the public bus to school or even money for lunch. As a result, at the age of 12 with a small amount of pesos, he ran away from home. With a backpack filled with one t-shirt, one pair of pants, one piece of underwear, one pair of socks, and 20 tortas (Mexican sandwiches), he left home and traveled alone by train to Mexico City to find a job. Once he arrived, Andres slept in the train station for two nights. There he met a man that offered him 25% of his gains for selling snacks and refreshments to those traveling on the train. He used that money to help his mom and support the family’s basic needs.

With a lot of ambition and hopes for a better life, he came to the United States when he was 25 and now resides in Apple Valley. In the last 16 years, he married, obtained his GED, became a citizen, had two children, and worked in HVAC. Andres was working as a technical HVAC installer, but when COVID hit, he was left unemployed. In this moment his wife suggested going to college for a technical career that would provide him with more opportunities. Today, Andres is studying Industrial Engineering at DCTC. He stated, “I love working with big machinery and, with the knowledge I have already obtained, I am ready to move forward within the engineering industry. My goal is to work at a company where I can use my knowledge within this diversified career and retire doing what I love.”

Andres received the Uponor Workforce Development Scholarship of $2,500 making it possible to purchase a new computer. In his letter to the donor, he stated, “This will help me advance in life from a poor Mexican boy to a professional engineer here in Minnesota.”

April Rodriguez is a very recent Inver Hills Community College graduate who greatly benefited from the support of scholarships. April graduated from Farmington High School in 2019 and is a first-generation college student. She attended Inver Hills Community College beginning in fall 2020 and earned a Psychology Transfer Pathway Associate of Arts on August 4, 2022.

She was in the TRIO academic advising and support program for eligible students, which helped her navigate the demands of college. April credits her TRIO advisor, Alicia Atwater, and her counselor, Erik Berquist, as important to her success while a student at Inver Hills. April noted that the faculty at Inver Hills exceeded her expectations. She thought that college faculty might be intimidating and that classes would be large and impersonal, but at Inver Hills she felt that every teacher cared about her and wanted her to succeed.

April was active in clubs and activities while also working part-time, volunteering, and excelling in her classes at Inver Hills. She was a member of the Phi Theta Kappa honor society and was part of the African Drum Ensemble that performed at the Inver Hills commencement in May, 2022. In addition, April worked at Walmart 20 hours a week while attending college.

April received two scholarships from the Inver Hills Community College Foundation. Each were $1,000 Kopp Foundation scholarships. She received one for fall semester 2021 and the other for spring semester 2022. The Kopp Foundation scholarships helped her pay for tuition and books and made it possible for her to avoid taking out loans for those semesters. Those scholarships, along with several other scholarships, living at home, keeping her expenses low, and working helped her keep her student loan debt down.

April said, “the main thing I want to say to you is thank you for helping me get one step closer to my dreams and believing in me. I have big plans and hope to do big things in the future, and I appreciate each person on my journey who pushes me in the right direction. Dreams are not achieved alone, because support from others is so important.”

April will start at the University of Minnesota – Twin Cities this fall 2022 semester and plans to earn a bachelor’s degree in psychology. She doesn’t know exactly what career she will pursue, but she wants to support people who suffer from personality disorders, substance abuse, or abuse victims. April’s start at Inver Hills is allowing her to achieve her academic and career goals.

**Current student Spotlight**

Morgan Marvin is a first-generation student at Inver Hills Community College. He is 19 years old, and started at Inver Hills in fall 2021. Morgan maintains a 3.88 grade point average, is a member of Phi Theta Kappa Honor Society, and is studying pre-social work. Morgan has worked incredibly hard in school since he was young. In high school he was a post-secondary enrollment options student, and took advanced placement and College in the Schools classes. He graduated high school with highest honors and a 3.8 grade point average and earned a varsity letter in choir, competed in conference track and field meets, was awarded scholarships from his school, and obtained 20 college credits. Morgan did all of this while helping his dad raise his younger sisters and being a positive role model for them.

Morgan's home life was very difficult at times which is why he chose a career to help others. He is determined to become a social worker and intends to give his clients the help and resources that he did not have. His goal is to earn a bachelor’s degree and become a certified youth social worker. While at Inver Hills Morgan worked at the on-campus food pantry, which allowed him to help those in need. He also works at Applebee's, and his supervisor describes him as remarkable, a team player, and a hard worker who always gives 100% and is willing to go the extra mile.

Morgan’s family did not have resources to pay for his education and Morgan lives on his own and is responsible for all of his expenses. During 2021-2022 Morgan received a Dakota Electric scholarship and a Dakota Electric Civic Engagement scholarship. Without scholarships Morgan would not have been able to afford college. Scholarships, and working part-time, make it possible for him to take classes and earn his degree. Scholarships allowed him to pursue and excel in his academic goals. In May 2023, when Morgan graduates from Inver Hills Community College, he will become the first person in his family to graduate from college. His hard-work and determination are remarkable.
