High Demand programs with other requirements

High-Demand programs require PSEO students to be full-time and may also include additional costs not covered by the PSEO program.

Additional Steps:

- Fill out traditional application for program of interest
- Sign High Demand Contract
- Discuss possible costs with PSEO Advisor

Important Notes:

- PSEO students applying for a High Demand program will be placed on the waitlist due to state laws.
- They will be informed when a spot has become available after all traditional students have been offered spots first.
- PSEO Students are never guaranteed a spot in a High Demand Program.

*Programs with 1 asterisk often have a waitlist, but PSEO students are often able to participate

**Programs with 2 asterisks have long waitlists and rarely have space for PSEO students
