

Connecting to eduroam on Windows 10/11

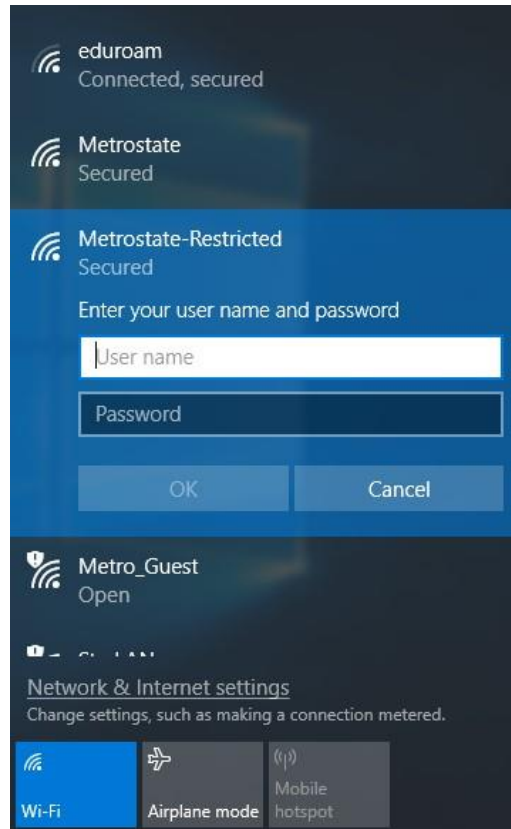

If your Windows device has already connected to eduroam before August 2023, please forget the network before proceeding.

This article will walk you through the configuration and setup of the eduroam wireless network on **personally owned** Microsoft Windows 10/11 devices.

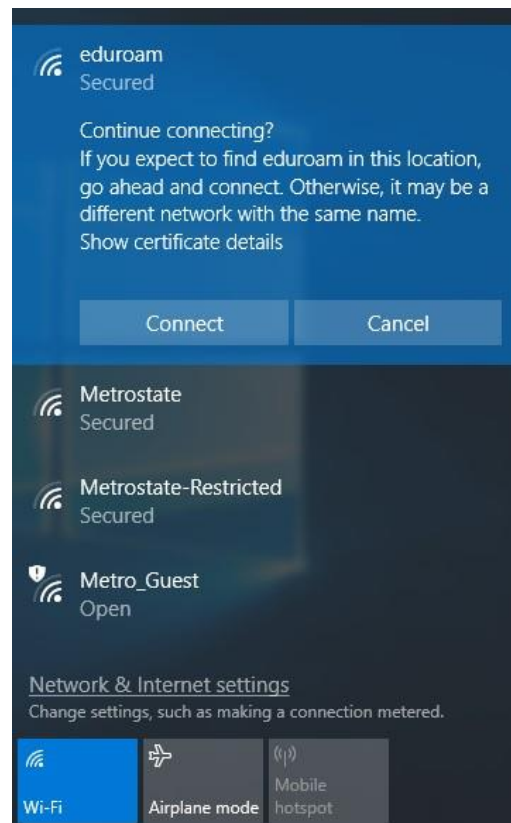

1. From the Windows 10/11 desktop, click on the Wi-Fi icon in the lower right-hand corner of your screen.
2. From the list of available networks, select eduroam and select the checkbox "Connect Automatically" and click "Connect".

3. Use login credentials, username: **StarID@go.minnstate.edu** (students) or **StarID@minnstate.edu** (staff) and enter your **StarID password** and click "Connect".

4. You may be prompted with the following screen "Continue connecting?". This is expected. Click "Connect".

5. Once authenticated, you will be connected to eduroam.
